Client's personal goals:

- 1) Increase wealth and feel more secure both financially and physically.
- 2) She is considering changing careers but doesn't know which direction to go. She would like inspiration.
- 3) Enhance close relationships.

The following Feng Shui solutions are recommended: (All solutions must be activated with Three Part Activation procedure. See addendum.)

Marriage Corner: This corner is architecturally missing. Hang a crystal here for extending this corner.

Clean out shrubbery and put flowering plants in the area below these windows.

Red or pink blossoms will enhance romance.

Bedroom security: The bed is situated so the door is at the foot of the bed.

Hang 3 crystals to protect the energy of the person sleeping in the bed.

The front of the house is constructed so the second floor overhangs the first floor. The head of the bed is hanging against this overhung wall leaving the head of the sleeping person with no support. Place a red cloth between the box spring and mattress to give protection and support.

Wealth corner: Energize the corner by clearing away heavy objects that are on upper shelf.

Aerate the fish bowl.

Enhance this corner size, shape and energy by placing a flag or windmill in this area.

Career Corner: Enhance your creative career ideas by placing 5 objects on this table that represent things you love. Cover the wooden table top with either a white or blue cloth. Change the objects as new interests catch your attention.

Invite the Qi into your home. The front

walkway is very narrow and almost impassable. Consider clearing away the overgrown bushes that hide the entrance to your home.

Bathroom and drain cures: Preserve the Qi that enters each bathroom by placing a full-length mirror on the outside of each bathroom door. This will keep good Qi from being flushed down any drain.

In the kitchen, place red tape around the drain under the sink.

Place red tape around any other drain in the house and install with the 3 secrets cure to preserve good Qi in the house and prevent it from draining away.
